FOR IMMEDIATE RELEASE

ProComSol Foundation Fieldbus (FF) Smart Communicator for Windows

LAKEWOOD, Ohio USA – June 21, 2021 – ProComSol, Ltd (www.procomsol.com) today announced the release of its new Windows based Smart Device Communicator Software for Foundation Fieldbus (FF). The software uses the Device Descriptor (DD) for the connected FF device so the user has full access to every Parameter and Method. According to Jeffrey Dobos, President of ProComSol, Ltd, "DevComFF offers an alternative to the traditional high cost FF Communicators. With the Windows Explorer interface, and larger screen of most Windows devices, the user has unprecedented access to the FF instrument data - easy to find and easy to read."

The Windows program (DevComFF.Win), in combination with the Softing mobiLink multi-protocol communicator (our PN: MOBI-FF), is a full functioned FF Communicator. The entire DD Library for FF devices from the FieldComm Group is included. New DD's can be added very easily by the user. A FF communicator that uses DD's can perform full configurations of Valves, Multi-Variable devices, and complex devices such as Radar Level and Coriolis Flow meters.

DevComFF.Win allows the user to view and edit device parameters and even save all the device parameters as a PDF file. The PDF file can then be shared with anyone in the world via the mobile network connections in a Windows device. Saving and sharing FF device configuration documentation is is now faster and more convenient.

ABOUT US

ProComSol, Ltd was founded in 2005 and has become the leading provider of technically advanced, cost-effective communication solutions to the process automation marketplace. The president, Jeffrey Dobos, has 20+ years' experience developing products with HART technology. The company also designs and manufactures RS232, USB, and Bluetooth HART modems. In combination with the modems, the company's DevCom Smart Communicator App family is used to convert a PC, Tablet, or Smartphone into a full featured, DD based HART or FF Communicator.
